

Making the most of your presentation

Jean-luc Doumont
Principiae

Strong presentation skills are a key to success for engineers, scientists, and others, yet many speakers are at a loss to tackle the task. Systematic as they otherwise can be in their work, they go at it intuitively or haphazardly, with much good will but seldom good results. In this talk, Dr. Doumont proposes a systematic way to prepare and deliver an oral presentation: he covers structure, slides, and delivery, as well as stage fright.

Date: Friday, October 13
Time: 3:00 – 5:00 pm
Location: 107 Harris Hall
